Subject: RE: Pharmaceutical Waste

Thanks for following-up on this issue. I'll keep you informed as we get more information on any potential projects in Nevada. Thanks!

Subject: Pharmaceutical Waste

Hi Jeffrey,

It looks like the email traffic I have on pharmaceutical waste was related to someone wanting to get the pyrolysis exemption. EPA has made applicability determinations in that case, if it ever comes up.

I assume this is the 2012 memo you were referring to:

[https://yosemite.epa.gov/osw/rcra.nsf/0c994248c239947e85256d090071175f/FCB11DD6F61D481685257AFE005EB5CE/\\$file/14833.pdf](https://yosemite.epa.gov/osw/rcra.nsf/0c994248c239947e85256d090071175f/FCB11DD6F61D481685257AFE005EB5CE/$file/14833.pdf). That's the most current information I'm aware of.
